January 18, 2023

To Whom It May Concern,

It is my pleasure to enthusiastically recommend Etienne GUILLET for a Software Engineer position.

My name is Arnaud Oisel, Senior Software Engineer at Lucca. I had the pleasure of working with Etienne for six months as its manager while he was doing his internship. Of all the Software Engineer interns I've worked with, Etienne is among the most intellectually curious and adaptative.

During our time together, Etienne proved to be very friendly, dedicated and efficient. His expertise in web development was a huge asset that led to the implementation of critical features in our software.

Etienne worked from the beginning to the end on important new features improving our customer satisfaction. Hand-in-hand with our Product Designer and our Product Managers he specified the functional and technical requirements of these features. He was fully integrated into our development pipeline, mastering tools like Git to open and review Pull Requests on Github. To implement these features he used Fullstack web development tools, including languages and frameworks for backend such as C# and ASP.NET Core, and for frontend such as Typescript, Angular 14, HTML and SCSS.

I am confident without reservation that Etienne would be an excellent fit for your organization. As a passionate and dedicated developer, he will be a productive addition to your team.

Feel free to contact me at +33 6 84 19 20 91 or aoisel@lucca.fr if you have any questions or would like me to further elaborate on Etienne's talents and achievements.

Sincerely,

Arnaud Oisel
SeniorSoftware Engineer
